

What Can We Do For You?

Our client list is extensive, working with large vehicle fleet organisations as well as smaller commercial companies. We are highly innovative and have introduced a raft of new services in the last year. Our new MOT testing and taxi testing facility in Dumfries is just one more addition to our growing portfolio. Our core services are based in Dumfries and Galloway but we understand the nature of business and we are developing our policy to cover a nationwide service.

Contact

Whatever type of vehicle maintenance you need we will have a cost-effective solution for you.

Vehicle Maintenance

Our Services

Our vehicle maintenance operation has the experience and expertise to help you manage your fleet, whatever its size. We have 23 staff, 5 Modern Vehicle Workshops & 12 Service vehicles.

Currently we provide services for TOM, BT Fleet, Fraikin, AML, Lex, AA, Scottish Power, Scottish Water, Network Rail and BT Openreach. We also provide local services for Euroroute Recovery, Soltyre, Riddocks Builders and Dumfries Limos.

Not only do we carry out Fleet maintenance, but we also carry out specialist maintenance and repairs for RCV's, sweepers, and gritters. Other services include grounds & plant maintenance, warranty repairs, MOT preparation & presentation, commercial brake testing, steam cleaning, 24/7 callout service, car valeting, commercial and light vehicle diagnostic fault finding and car and light van pass-thru technology.

We cover all Dumfries & Galloway as well as areas beyond the council boundaries. Our workshops are modern and have been fully refurbished. We now service the whole Dumfries & Galloway council fleet.

Public Excellence

We have been Association of Public Service Excellence Award finalists on a number of occasions

Fully Audited

We are fully audited on a regular basis and have always received glowing reports, making us fully compliant with all legislation

Modern Apprentices

We have been involved in a successful modern apprenticeship scheme and have 3 modern apprentices currently working with us.
