Introduction

As set out in Part 1 of the Children and Young People (Scotland) Act 2014, Scottish Ministers must keep under consideration whether there are any steps which they could take which would or might secure better or further effect in Scotland of the UNCRC requirements, and if they consider it appropriate to do so, take any of the steps identified by that consideration. Undertaking a CRWIA helps Ministers to fulfil this duty.

There are two key considerations when undertaking a CRWIA:

Participation: The United Nations Convention on the Right of the Child (UNCRC) sets out that children have the right to participate in decisions which affect them. When assessing the impacts of the policy/measure, you are recommended to consult with children and young people. You can do this directly, through organisations that represent children and young people or through using existing evidence on the views and experiences of children where relevant. Participation of children and young people should be meaningful and accessible.

Evidence: You are recommended to gather evidence when assessing the impact of the policy/measure on children's rights and also for measuring and evaluating the policy/measure. If you identify any gaps in the evidence base, you can discuss how you will address these with analytical colleagues.

1. Which articles of the UNCRC does this policy/measure impact on?

List all relevant Articles of the UNCRC and Optional Protocols. While all articles of the UNCRC are given equal weight and are seen as complementing each other, the four general principles of the UNCRC (non-discrimination; the best interests of the child; the right to life, survival and development; and the child's right to have their views given due weight) underpin all other rights in the Convention, and should always be considered in your assessment. Please refer to [Annex 1](#) for UNCRC Article set out in Clusters and [Annex 2](#) for General Comments on the Articles.

Articles 2, 3, 6 and 12.

2. What impact will your policy/measure have on children's rights?

The 2025 – 2029 Equality Outcomes will have a Positive impact on children and young people who are within a protected characteristics group. There are specific Equality Outcomes which focus on children and young people –

- **Raise attainment, achievement and participation for children with Protected Characteristics**
- **Increase partnership working between pupils, parents and professionals in policy development in schools.**
- **Reduce identity-based bullying and harassment in schools.**

- **Reduce the opportunities for children and young people to be involved in risky behaviours relating to alcohol and gambling.**

3. Will there be different impacts on different groups of children and young people?

Which groups of children will be affected by the policy/measure? Are there competing interests between different groups of children and young people, or between children and young people and other groups?

The 2025 – 2029 Equality Outcomes will have a positive impact on children and young people who are within the protected characteristic groups.

4. If a negative impact is assessed for any area of rights or any group of children and young people, can you explain why this is necessary and proportionate? What options have you considered to modify the proposal, or mitigate the impact?

If options to modify the policy/measure are included here, include associated resource implications where relevant.

N/A

5. How will the policy/measure give better or further effect to the implementation of the UNCRC in Scotland?

This will inform Scottish Ministers' duty to report to Parliament on children's rights under the Children and Young People (Scotland) Act 2014.

N/A

6. How have you consulted with relevant stakeholders, including involving children and young people in the development of the policy/measure?

This would include public or targeted consultations with children and young people, their parents/carers and the children's workforce. To make an informed assessment of the impact, the views of the children and young people who will be affected by the policy/measure should be considered fully. If the policy/measure has changed as a result of consultation with stakeholders, please set this out.

Dumfries and Galloway Youth Council were consulted on our draft Equality Outcomes on the 25th January 2025, and were in agreement that there would be a positive outcome for Children and Young People.

7. What evidence have you used to inform your assessment?

The evidence base may include demographic information, academic research, service monitoring/inspection reports, service evaluation reports, user surveys, etc. In particular, look at what existing evidence tells you about children and young people's views and experiences of the relevant service(s); and/or what it tells you about children and young people's views of the policy proposal. Identify any gaps in the evidence base, and set out how you will address these.

- **An online survey in Partnership with NHS Dumfries and Galloway**
- **In-Person Engagement Events across the Region and in Partnership with NHS Dumfries and Galloway**
- **Online Engagement Events in Partnership with NHS Dumfries and Galloway**
- **Online Engagement Event with the Equality and Diversity Working Group**
- **Evidence and engagement with local diversity groups**
- **Information contained within the Council Plan**
- **Performance Monitoring Reports of the Representation and Engagement Commission**
- **National and local research including –**
 - **Scottish Census 2022**
 - **Scottish Government Equality Evidence Finder**
 - **Scottish Government Labour Market Statistics for Scotland**

8. How will the impact of the policy/measure be monitored?

As part of the normal decision making process, the implementation of the policy/measure should be monitored. Please set out plans for measuring the impact of your policy/measure, including how it will support public bodies in Scotland to meet their duties to safeguard, support and promote the wellbeing of children in their area. Wellbeing is defined by eight wellbeing indicators: Safe, Healthy, Achieving, Nurtured, Active, Respected, Responsible, and Included.

We will produce and publish a progress report at two and four years which will detail the progress made on each of the Equality Outcomes.

9. How will you communicate to children and young people the impact of the policy/measure on their rights?

Providing information to children and young people on how their rights will be impacted helps to ensure that policy making is transparent. Are you publishing a child-friendly or accessible CRWIA?

The Equality Outcomes will be available on our Council Website.

[Article 30](#)

[Optional Protocol to the UNCRC on the Involvement of Children in Armed Conflict](#)

[Governments](#) should ensure that children under 18 who are members of the armed forces do not take a part in combat. Any recruitment of children under 18 must be voluntary and carried out with the full consent of the child's parents/carers. The UK Government has entered interpretive Declarations to this Optional Protocol. The UK would not exclude the deployment of under 18s who are members of the armed forces in direct combat if there is a genuine military need; it is not practicable to withdraw them before deployment; or doing so would undermine the operational

effectiveness of their unit. The minimum age at which children may join the UK armed forces is 16 years, with parental consent required.

[Optional Protocol to the UNCRC on the Sale of Children, Child Prostitution and Child Pornography](#) Governments must prohibit the sale of children, child prostitution and child pornography, and recognise the vulnerability of child victims, protect their privacy, provide appropriate support services and ensure their safety.

Annex 2 – General Comments

General Comments are non-legally binding interpretive aids issued by the UN Committee on the Rights of the Child to provide State parties with assistance regarding the interpretation of an article or issue relating to the UNCRC, and what actions governments should take to ensure its implementation. New General Comments appear at irregular intervals.
